

AQUALERT

for Challenges

aqualertapp.com

Employees are the best asset of every organisation, and putting effort into employee wellness and health can:

Encourage better teamwork

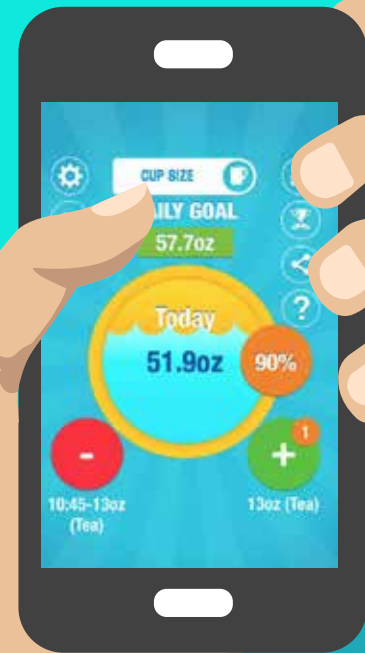

Increased productivity

Reduce sick leave and workplace accidents

Running a Healthy Hydration Challenge among your employees is the best way to encourage them to take care of their Eating Habits, Health and eventually start a Fitness Program

They will be healthier, happier, more productives and with a better image of their employer

Running it is very simple:

01

Plan

Just let us know how many invitations you will send and what are going to be the teams or departments.

02

Personalize

If you want to add your institutional image on Aqualert and on challenge site.

03

Admin

We will provide you with an admin access where you can see your employees data, validate it, have reports and see who is winning.

04

Share

Send the invitations using your own systems and employees emails.

06

Play

Challenge Start, employees will have Aqualert on their smartphones with access to the Challenge Dashboard where they can see who is winning and the statics of all the teams. The challenge can last as long as you want, usually 2 weeks long.

05

Reward

Usually we suggest client to give a prize / recognition to those winning teams or those who reach a nice hydration level.

iLet's start!
